Shenandoah Telecommunications Company Reports First Quarter 2024 Results

EDINBURG, Va., May 03, 2024 (GLOBE NEWSWIRE) -- Shenandoah Telecommunications Company (“Shentel” or the “Company”) (Nasdaq: SHEN) announced first quarter 2024 financial and operating results.

Tower segment’s financial results will be presented as discontinued operations in the Company’s Consolidated Financial Statements. Under the new organizational and reporting structure, the Company has one reportable segment in continuing operations.

First Quarter 2024 Highlights

- Glo Fiber Markets added approximately 5,000 subscribers and ended the quarter with approximately 47,000 subscribers.
- Glo Fiber passings grew 25,700 to a total of approximately 260,000.
- As previously reported, Shentel completed the initial closing of the sale of substantially all of Shentel’s tower portfolio and operations (“Tower Portfolio”) to Vertical Bridge Holdco, LLC for \$309.9 million in cash (the “Tower Transaction”) on March 29, 2024. The Company expects to pay up to \$10.0 million in income taxes during the remainder of 2024 as a result of the gain on the sale after utilization of net operating loss carryforwards.
- Revenue grew 3.1% to \$69.2 million compared to the first quarter of 2023. Glo Fiber Markets revenue grew 73.0% to \$12.1 million.
- Net loss from continuing operations was \$4.1 million in the first quarter of 2024 compared with net income from continuing operations of \$0.7 million in the first quarter of 2023 due primarily to higher interest expense.
- Net income from discontinued operations was \$218.8 million in the first quarter of 2024, compared with net income of \$1.3 million in the first quarter of 2023 due primarily to a gain recognized on the sale of the Tower Portfolio.

“We had another record quarter for Glo Fiber net subscriber additions and a strong quarter of Glo Fiber passings released to sales, while also closing a major acquisition, a major divestiture and \$356 million in financings.” said President and CEO, Christopher E. French. “We are making good progress on the Horizon integration, and we are well positioned for sustainable organic growth as we complete the integration by early 2025.”

Shentel’s first-quarter earnings conference call will be webcast at 8:30 a.m. ET on Friday, May 3, 2024. The webcast and related materials will be available on Shentel’s Investor Relations website at <https://investor.shentel.com/>.

First Quarter 2024 Results

- Total Cable Markets and Glo Fiber Markets broadband data Revenue Generating Units (“RGUs”) as of March 31, 2024 were 155,687, representing 12.2% year-over-year growth. Penetration for Cable Markets and Glo Fiber Markets as of March 31, 2024 were 50% and 18%, respectively, compared to 52% and 17%, respectively, as of March 31, 2023. Total Glo Fiber Markets passings grew year-over-year by 94,509 to 259,567.
- Revenue in the first quarter of 2024 grew \$2.1 million, or 3.1%, to \$69.2 million primarily driven by a \$4.7 million, or 9.1%, increase in Residential & Small and Medium Business (“SMB”) revenue, partially offset by a \$2.3 million, or 19.8%, decrease in Commercial Fiber revenue. Glo Fiber Markets was the driver of the Residential & SMB revenue growth due to a 62.3% increase in broadband data RGUs and a 9.7% increase in broadband data Average Revenue per User (“ARPU”). Commercial Fiber revenue decreased as expected due to the previously guided decline in T-Mobile revenue from prior period backhaul circuit disconnects as part of decommissioning the former Sprint network.
- Cost of services for the three months ended March 31, 2024, increased approximately \$0.6 million, or 2.2%, compared with the three months ended March 31, 2023, primarily driven by a 17% increase in average cost per video RGU as a result of annual programming cost increases and higher line costs from expanding our Glo Fiber network into new markets.
- Selling, general and administrative expense for the three months ended March 31, 2024, increased \$2.4 million, or 9.3%, compared with the three months ended March 31, 2023, primarily driven by higher advertising costs associated with the Company’s expansion of Glo Fiber, higher bad debt charges from macro economic conditions and higher payroll and stock compensation expenses.
- Adjusted EBITDA of \$19.3 million in the first quarter of 2024 was consistent with consolidated Adjusted EBITDA in the first quarter of 2023.
- Depreciation and amortization increased \$2.2 million, or 14.2%, compared with the three months ended March 31, 2023, primarily driven by the Company’s expansion of its Glo Fiber network.

Other Information

- Capital expenditures were \$70.1 million for the three months ended March 31, 2024 compared with \$67.5 million in the comparable 2023 period. The \$2.6 million increase in capital expenditures was primarily driven by inventory timing and DOCSIS upgrades in Cable Markets and Glo Fiber and government-subsidized market expansion.

- On April 1, 2024, Shentel completed its previously announced acquisition of Horizon Acquisition Parent LLC (“Horizon”) for \$385 million including \$305 million in cash and issuing 4,100,375 shares of Shentel’s common stock to a selling shareholder of Horizon (“Horizon Transaction”). Horizon is a leading commercial fiber provider in Ohio and adjacent states. Shentel funded the cash portion of the acquisition with a combination of existing cash resources, proceeds from Tower Transaction, and issuance of \$81 million of 7% Participating Exchangeable Perpetual Preferred Stock (“Preferred Stock”).
- On April 1, 2024, the Company amended and upsized its credit facility by \$275 million to a total of \$675 million to provide growth capital to fund its Glo Fiber expansion to approximately 600,000 passings by the end of 2026.
- As of March 31, 2024, our cash and cash equivalents totaled \$389.7 million. On a pro forma basis for the Horizon Transaction, issuance of Preferred Stock and credit facility amendment and upsizing, total available liquidity was \$484 million including approximately \$109 million in cash and cash equivalents, \$225 million in delayed draw term loans and \$150 million in revolving line of credit. On a pro forma basis for the above transactions, debt, net of the Company’s cash balance, was approximately \$190 million.

Earnings Call Webcast

A replay of the call will be available for a limited time on the Investor Relations page of the Company’s website.

About Shenandoah Telecommunications

Shenandoah Telecommunications Company (Shentel) provides residential and commercial broadband services through its high speed, state-of-the-art fiber optic and cable networks to customers in seven contiguous states in the eastern United States. The Company’s services include: broadband internet, video, voice, high-speed Ethernet, dark fiber leasing, and managed network services. The Company owns an extensive regional network with over 15,600 route miles of fiber. For more information, please visit www.shentel.com.

This release contains forward-looking statements about Shentel regarding, among other things, its business strategy, its prospects and its financial position. These statements can be identified by the use of forward-looking terminology such as “believes,” “estimates,” “expects,” “intends,” “may,” “will,” “plans,” “should,” “could,” or “anticipates” or the negative or other variation of these or similar words, or by discussions of strategy or risks and uncertainties. The forward-looking statements are based upon management’s beliefs, assumptions and current expectations and may include comments as to Shentel’s beliefs and expectations as to future events and trends affecting its business that are necessarily subject to uncertainties, many of which are outside Shentel’s control. Although management believes that the expectations reflected in the forward-looking statements are reasonable, forward-looking statements are not, and should not be relied upon as, a guarantee of future performance or results, nor will they necessarily prove to be accurate indications of the times at which such performance or results will be achieved, and actual results may differ materially from those contained in or implied by the forward-looking statements as a result of various factors. A discussion of other factors that may cause actual results to differ from management’s projections, forecasts, estimates and expectations is available in Shentel’s filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2023 and our Quarterly Reports on Form 10-Q. Those factors may include, among others, the expected savings and synergies from the Horizon Transaction may not be realized or may take longer or cost more than expected to realize, changes in overall economic conditions including rising inflation, regulatory requirements, changes in technologies, changes in competition, demand for our products and services, availability of labor resources and capital, natural disasters, pandemics and outbreaks of contagious diseases and other adverse public health developments, such as COVID-19, and other conditions. The forward-looking statements included are made only as of the date of the statement. Shentel undertakes no obligation to revise or update such statements to reflect current events or circumstances after the date hereof, or to reflect the occurrence of unanticipated events, except as required by law.

Non-GAAP Financial Measures

Adjusted EBITDA and Adjusted EBITDA Margin

The Company defines Adjusted EBITDA as net (loss) income from continuing operations calculated in accordance with GAAP, adjusted for the impact of depreciation and amortization, impairment, other income (expense), net, interest income, interest expense, income tax expense (benefit), stock compensation expense, transaction costs related to acquisition and disposition events (including professional advisory fees, integration costs, and related compensatory matters), restructuring expense, tax on equity award vesting and exercise events, and other non-comparable items. A reconciliation of net (loss) income from continuing operations, which is the most directly comparable GAAP financial measure, to Adjusted EBITDA is provided below herein.

Adjusted EBITDA margin is the Company's calculation of Adjusted EBITDA, divided by revenue calculated in accordance with GAAP.

The Company uses Adjusted EBITDA and Adjusted EBITDA margin as supplemental measures of performance to evaluate operating effectiveness and assess its ability to increase revenues while controlling expense growth and the scalability of the Company's business growth strategy. Adjusted EBITDA is also a significant performance measure used by the Company in its incentive compensation programs. The Company believes that the exclusion of the expense and income items eliminated in calculating Adjusted EBITDA and Adjusted EBITDA margin provides management and investors a useful measure for period-to-period comparisons of the Company's core operating results by excluding items that are not comparable across reporting periods or that do not otherwise relate to the Company's ongoing operations. Accordingly, the Company believes that Adjusted EBITDA and Adjusted EBITDA margin provide useful information to investors and others in understanding and evaluating the Company's operating results. However, use of Adjusted EBITDA and Adjusted EBITDA margin as analytical tools has limitations, and investors and others should not consider them in isolation or as substitutes for analysis of our financial results as reported under GAAP. In addition, other companies may calculate Adjusted EBITDA and Adjusted EBITDA margin or similarly titled measures differently, which may reduce their usefulness as comparative measures.

Supplemental Information

Operating Statistics

	March 31, 2024	March 31, 2023
Homes and businesses passed (1)	476,081	377,348
Cable Markets	216,514	212,290
Glo Fiber Markets	259,567	165,058
Residential & Small and Medium Business ("SMB") Revenue Generating Units ("RGUs"):		
Broadband Data	155,687	138,713
Cable Markets	108,958	109,920
Glo Fiber Markets	46,729	28,793
Video	40,148	45,660
Voice	40,734	40,135
Total Residential & SMB RGUs (excludes RLEC)	236,569	224,508
Residential & SMB Penetration (2)		
Broadband Data	32.7%	36.8%
Cable Markets	50.3%	51.8%
Glo Fiber Markets	18.0%	17.4%
Video	8.4%	12.1%
Voice	8.9%	11.2%
Fiber route miles	10,132	8,663
Total fiber miles (3)	883,199	709,123

(1) Homes and businesses are considered passed ("passings") if we can connect them to our network without further extending the distribution system. Passings is an estimate based upon the best available information. Passings will vary among video, broadband data and voice services.

(2) Penetration is calculated by dividing the number of users by the number of passings or available homes, as appropriate.

(3) Total fiber miles are measured by taking the number of fiber strands in a cable and multiplying that number by the route distance. For example, a 10 mile route with 144 fiber strands would equal 1,440 fiber miles.
